Pattarapol Srikumthai

CAREER OBJECTIVES

I want to develop strong communication and teamwork abilities through active participation in team problem-solving sessions. I am gaining hands-on experience with a focus on collaborating with experienced professionals to deepen my understanding of agile methodologies and best practices in many working skills.

EDUCATION HISTORY

2018 – 2021

Benchamaracharungsarit school

2022 – Present

Huachiew chalermprakiet university

HARD SKILLS

- Programming in C++,java,SQL,HTML,PHP
- Visual Studio Code
- Microsoft 365(Excel,word)

SOFT SKILLS

- Flexibility at work
- Integrity
- Enjoys learning new things
- Teamwork

UNIVERSITY PROJECT EXPERIENCES

2023 SEMESTER 2

Cyber security

Scanner network
- Use nmap to scan and view IP addresses in the network, with PHP as the UI.

2025 SEMESTER 2

Introduction to Microcontroller and IoT applications

Bicycle_flowscore
- Developed an IoT-based system that utilizes a flow sensor to measure cycling activity and calculate points based on the user's pedaling effort. The system encourages physical activity by converting cycling performance into reward points.

CERTIFICATES

2024

SET E-Learning
- Resulting from self-directed learning of the Business Model Canvas (BMC) using the provided e-learning resources.

2024

THAI MOOC
- The knowledge was acquired through self-directed study of blockchain via Thai MOOC

2025

Start Up
- Obtained from a university start-up competition.
